MODULE DETAILS

The Business Environment of Treasury

This module equips the participant to understand their organisation's strategy and how that impacts on Treasury activities. An ability to understand organisational and business unit strategies will assist the Treasurer (i) when communicating externally, to appropriately describe organisation strategy and, (ii) internally, to provide appropriate risk management and financial advice.

India Inaugural Price: ₹ 7,500 *

ENROLL NOW

Role of Treasury

This module introduces participants to the role of the Corporate Treasury. It describes the developing role of the Treasurer and the range of stakeholders, both external and internal, that a Treasury needs to manage. This unit also explores the need for a strong governance framework, and the important role that role of policies and procedures play in implementing this framework.

India Inaugural Price: ₹ 7,500 *

ENROLL NOW

Treasury Operations

This module equips participants to understand the operating environment of a corporate treasury. It describes key financial market practices, and the nature of the control environment required to manage operational risks within a corporate treasury. This module will also explore the important role of credit risk policies and compliance in a corporate treasury environment.

India Inaugural Price: ₹ 7,500 *

[ENROLL NOW](#)

Sources of Funding

Raising external finance is one of the key roles of the Treasurer, and there is a wide choice of funding sources available. This module examines the key products available for meeting an organisation's external funding needs. Course participants will gain an understanding of the key characteristics of individual financial instruments and be equipped to compare and evaluate alternative financial products. It is designed to highlight key similarities and differences between the various financing products.

India Inaugural Price: ₹ 7,500 *

[ENROLL NOW](#)

Risk Management Principles

This module provides an introduction to the general principles of risk management, which will equip participants to identify and assess key risks and understand key risk policy issues at the enterprise level. Participants will be equipped to apply these principles to individual risks commonly faced by corporate treasuries.

India Inaugural Price: ₹ 7,500 *

[ENROLL NOW](#)

Risk Management Tools & Techniques

This module explores in detail the financial markets products available to hedge foreign exchange, interest rate and commodity price exposures. Participants will be equipped to understand necessary transactional requirements across the range of derivatives markets. This unit is designed to highlight key similarities and differences between the various risk management products and provide an understanding of the functioning of capital markets.

India Inaugural Price: ₹ 7,500 *

[ENROLL NOW](#)

Cash Flow Analysis & Financial Planning

Managing the cash flow of a business is one of the Treasurer's main roles. This requires the ability to understand the cash flow dynamics – particularly its growth and volatility – of the business, and then design a financial strategy that best supports the business. This responsibility ranges from short-term cash management to long-term financial planning. This module explains how to analyse the cash flow dynamics of a business and assess the key cash flow risks to the business.

MODULE DETAILS

Treasury Systems

Treasury systems are critical to the efficient operation of a corporate treasury. This unit describes the range of systems needed by a modern corporate treasury and provides guidelines as to how to assess the choices available.

India Inaugural Price: ₹ 10,000*

ENROLL NOW

Regulation, Accounting & Taxation

This module equips corporate treasurers to assess the regulatory, accounting and tax issues that impact on corporate treasury operations. Participants will be able to identify key reporting, legal and regulatory obligations.

India Inaugural Price: ₹ 10,000*

ENROLL NOW

Valuation Tools for the Financial Markets

Treasury activities generate exposures to financial institutions and financial products that generate both mark to market exposures and credit exposures. This module provides the tools to help assess this valuation and credit exposures and develop policies to manage these risks.

India Inaugural Price: ₹ 10,000*

ENROLL NOW

Foreign Exchange Risk Management - Applications

This module explores in detail the application of Risk Management Principles and techniques to foreign exchange risks most commonly faced by corporate Treasurers. The unit will equip you to identify the specific types of FX risks arising, evaluate the range of tools available to hedge, and equip you to understand necessary transactional requirements.

India Inaugural Price: ₹ 10,000*

ENROLL NOW

Commodity Risk Management - Applications

Businesses face a range of exposures which are, increasingly, able to be hedged by financial market instruments. In addition to interest rate exposures, firms can hedge commodity, energy, and other exposures. This module explores in detail the application of Risk Management Principles and techniques to these exposures and considers the value of financial hedging tools in these applications.

India Inaugural Price: ₹ 10,000*

ENROLL NOW

Debt Portfolio Management

Managing a company's debt is one of the key roles of the Treasurer, whether it is managing a trade finance facility to a portfolio of international bond issues. Prior to undertaking a debt raising, the Treasurer will need to have policy parameters in place. This module examines the key elements of debt policy, and then examines the key products available to best meet the policy requirements. This will assist the Treasurer in developing recommendations about Treasury funding strategy.

India Inaugural Price: ₹ 10,000*

ENROLL NOW

Financial Strategy

How much debt should a company have in its capital structure? How much dividends should be paid out? The CFO needs to address these questions when determining financial strategy. This module examines the key drivers of financial strategy and equips the Treasurer to engage in discussions about the most appropriate financial strategy, both internally and externally.

India Inaugural Price: ₹ 10,000*
